

Advanced wilderness life support course

Join the Department of Emergency Medicine in attending the first ever advanced wilderness life support course (AWLS) offered in the region. This is a must take course if you spend large periods of time outdoors or have an interest in environmental exposures and diseases.

The course will be offered over three days, Nov. 2–4, at the University of South Carolina School of Medicine Greenville and will feature regional physicians and nationally–recognized lecturers.

The course will cover:

- Commonly encountered wilderness medical scenarios
- Background on the physiology of disease
- Physics of the wild

Participants are eligible for 20 category 1 CME credits and AWLS certification, the highest level of certification in wilderness care.
