

2019 annual team member engagement survey begins next week

The 2019 annual team member engagement survey takes place Monday, Aug. 19–Friday, Sept. 6. As we continue to move forward as one, this first-ever organization-wide survey allows you to shape the future of our health company by sharing your opinion on what’s working well and what needs improvement. All responses remain confidential.

How you can participate

- Monday, Aug. 19, team members* will receive an email from Perceptyx, Inc. (customersupport@Perceptyx.com) with a link to participate online.
- The survey takes 15-minutes or less to complete, and progress can be saved.
- Team members in Nursing can expect it to take about 25-minutes to complete, as there are additional questions for this area.
- The survey can be taken while at work or home, and has been designed for both desktop and mobile devices.

Receive prizes

Everyone who completes the survey is eligible to receive one of several prizes, ranging from gift cards to wearable technology and home entertainment items. Prizes have been made possible through the support of corporate partners, the use of corporate reward points and the [Purchasing Power](#) program. Team members will be contacted directly throughout the length of the survey.

Results will be shared with leaders this fall. After having sufficient time to review the findings, leaders will meet with their teams to discuss the results and develop an action plan to address any needed changes.

** Palmetto Health-USC Medical Group team members are included.*
