

UPDATED: Nursing leadership organization announcement

From Carolyn Swinton, RN, senior vice president and chief nursing officer, Prisma Health

As a follow-up to last week's communication regarding several nursing leaders expanding their roles, I'd like to take a moment and clarify what this means for each person. The following leaders will continue in their current roles listed below, as well as take on several new responsibilities in an effort to standardize daily operations and achieve nursing excellence:

Levi Campbell, MS, RN

Currently serving as Director, Internal Resource Pool and Nursing Business Operations for Prisma Health-Midlands and Agency Contract Labor for Prisma Health, Levi's role will expand to Interim Executive Director, Internal Resource Pool and Nursing Business Operations, for all of Prisma Health.

Lori Stanley, DNP, RN, NEA-BC, CENP

Currently serving as Chief Nurse Executive for the Upstate's Central Region and Prisma Health Greenville Memorial Hospital, Lori's role will expand to Interim Upstate Affiliate Nurse Lead, serving as the point person for nursing operations in the Upstate, coordinating nursing activities among Prisma Health-Upstate chief nurse executives and associate chief nurse executives.

Kristi Coker, PhD, MHA, RN

Currently serving as Director, Prisma Health Greenville Memorial Hospital Nursing Operations, Kristi's role will expand to Interim Director, Nursing Business Operations, for Prisma Health-Upstate.

Geralyn McDonough, MA, BSN, RN, CENP

Currently serving as Director, Nursing Quality & Practice as well as Magnet Program Coordinator for the Upstate's Central Region, Geralyn's role will expand to Interim Director, Nursing Quality & Practice and Magnet Program Coordinator, for Prisma Health-Upstate.

Please join me in congratulating these leaders on their expanded roles.
