

## Movie Showing: Still Alice

Friday, Sept. 21, at 11 a.m.

At once beautiful and terrifying, the feature film *Still Alice* depicts the onset of Alzheimer's and how Alice and her family cope with the many changes. We'll watch the film together and then discuss how the family learned to support her, all the while taking care of themselves as well.

The movie will be shown in Conference Room 3 at Oconee Memorial Hospital (298 Memorial Drive, Seneca). The first 20 viewers who preregister will receive a free copy of the book *Still Alice*. To register, contact Eunice Lehmacher at [elehmacher@ghs.org](mailto:elehmacher@ghs.org) or **(864) 882-7857**. RSVP is requested (but not required). Popcorn and other healthy snacks will be served.

The movie and discussion are ideal for anyone who knows someone with dementia or who wants to know more about caregiving. If you prefer to watch the movie at home, join us to discuss the movie at 12:30 p.m.

Oconee Memory Health offers many programs for caregivers of loved ones with dementia. If you would like more information about other classes or support for caregivers or treatment for people with dementia, email Eunice Lehmacher at [elehmacher@ghs.org](mailto:elehmacher@ghs.org).
